JOURNAL OF RESEARCH of the National Bureau of Standards—A. Physics and Chemistry
Vol. 80A, Nos. 5 and 6, September–December 1976

INDEX TO VOLUME 80A

January–December 1976

A

Page

Abramowitz, S., Kurylo, M.J., Braun, W., Krauss, M., A study of the chemiluminescence of the $Pb + O_3$ reactions... 167
Absolute absorptivities 567
Absolute quantum efficiency 413
Absolute quantum yield 413
Absolute yield 409
Absorbance linearity 631
Absorbed dose 663
Absorption 143, 643
Absorption cross section 9
Accuracy 631
Acidic potassium dichromate solutions 631
Acidic potassium dichromate solutions as ultraviolet absorbance standards 631
Alkali antimonates 761
Aminocourmarins 421
Antibodies 605
Antigens 605
Argentar, H., Structure- and solvent-property relationships for the electronic energies of charge-transfer complexes between certain benzene derivatives 173
Aromatic amine 173
Atomic energy levels 465
Atomic spectra 465, 787
Atomic theory 465
Automatic potentiometry 669
Automation 669

B

Bandwidth 609
Barium sulphate 189, 585
Bass, A. M., Ledford, A. E., Jr., Laufer, A. H., Extinction coefficients of NO_2 and N_2O_4 143
Bennett, H. E., Stanford, J. L., Structure-related optical characteristics of thin metallic films in the visible and ultraviolet 643
Bennett, L. H., Weisman, I. D., Maxwell, L. R., Sr., Henson, D. E., Cancer detection by NMR in the living animal 439
Benzene derivative 173
Beryllium aluminate 65
Bibliography 207
Bidirectional radiometry 597
Bidirectional reflectance 189
Bidirectional reflectometer 189
Bidirectional reflectometry. Part I. A high resolution laser bidirectional reflectometer with results on several optical coatings 189
Bidirectional reflectometry. Part II. Bibliography on scattering by reflection from surfaces 207
Bigg, W. R., Furukawa, G. T., Riddle, J. L., The International Practical Temperature Scale of 1968 in the region 90.188 K to 903.89 K as maintained by the National Bureau of Standards 477
Biological polymers 605
Birks, J. B., Fluorescence quantum yield measurements 389
Black coating 189
Blumenthal, B. H., Demas, J. N., On the actinometric measurement of absolute luminescence quantum yield 409
Braun, W., Kurylo, M. J., Abramowitz, S., Krauss, M., A study of the Chemiluminescence of the $Pb + O_3$ reactions 167
Bril, A., de Jager-Veenis, A. W., Some methods of luminescence efficiency measurements 401
Brower, W. S., Jr., Waring, J. L., Roth, R. S., Parker, H. S., Phase equilibria and crystal growth in the alkali antimonate system Sb_2O_4–$NaSbO_3$, Sb_2O_4–$KSbO_3$, and Sb_2O_4–$NaSbO_3$–NaF 761
Budde, W., Calibration of reflectance standards 585
Buffone, G. J., Standardization of light scattering measurement in conjunction with immunochemical analysis 605
Burke, R. W., Mavrodineanu, R., Acidic potassium dichromate solutions as ultraviolet absorbance standards 631

C

Calculations of configurations of doubly ionized copper (Cu III) 465
Calibration 609
Calibration of reflectance standards 585
Calibration of ultraviolet spectrophotometers 631
Callis, J. B., The calorimetric detection of excited states 413
Calorimetric detection of excited states 413
Calorimetry 413, 669
Cancer 439
Canopies 597
Carbazine dyes 421
Cathode-ray excitation 401
Cenelnik, E. D., Mielenz, K. D., Cundall, R. B., A study of the polarization of fluorescence of ordered systems with application to ordered liquid crystals 15
Cezairliyan, A., McClure, J. L., Measurement of melting point and radiance temperature (at melting point and at 653 nm) of Hafnium–3 (wt. %) Zirconium by a pulse heating method 659
Chang, S.-S., Heat capacities of polyethylene IV. High molecular weight linear polyethylene 51
Chang, S.-S., Self-balancing nanvolt potentiometric system for thermometry and calorimetry 669
Charge-transfer complex 173
Chemical actinometry 409
Chemiluminescence 167
Chromatography 551
Chrysoberyl 65
Clausius-Clapeyron equation 775
Cobalt–60 gamma radiation 663
Color matching 551
Color measurement 551
Comparator 477
Composite materials 45
Computation check 663
Computer simulation of metastable fluid states in the Lennard-Jones system 59
Considerations for the use of semi-transparent metallic thin films as potential transmittance standards in spectrophotometry 637
